Share Yourself Artists - Style Guide

Product Name: Share Yourself Artists
Team Name: SYA Team Flutter

Main Ideas
- Use dartfmt to auto-format, it handles
  - Indentation
  - Brace styling
  - Line length/text wrapping
  - Can be configured to run on save

- Use camelCase for variables and method names

- Underscores in front of variables and methods signify them as Private

- Use spaces instead of tabs

- Unit test files should be name the same as the file they are testing with the addition of the word test

- Commented out code is considered 'dead' and should be removed

- Add a TODO comment to signify what still needs to be done

- Fix all warnings

- Name branches reasonable after the feature they are implementing
